

Texas A&M AgriLife Extension Service is a unique education agency with a statewide network of professional educators, trained volunteers, and county offices. It reaches into every Texas county to address local priority needs. Some of our major efforts are in mitigating drought impacts; conserving water use in homes, landscapes, and production agriculture; improving emergency management; enhancing food security; and protecting human health through education about diet, exercise, and disease prevention and management. **WILDLIFE
MANAGEMENT**

Quick Link Guide

Setting up and maintaining your wildlife plan can be a difficult and daunting task. This quick reference guide is a resource to some of the many links found on the web. You will find links from understanding your chosen qualifications, to finding the required paperwork. Please take your time and review as many of these as possible.

There are also many other agencies that will help you along the way. Their information will be provided as well.

A good starting place is on the Bandera Central Appraisal District's website under the "agricultural use" tab. Here you will be able to find the 1d1 application, annual update form, and our county requirements.

Bandera Central Appraisal District Agricultura Use

<https://www.bancad.org/agricultural-use/>

Another valuable resource is the Texas Parks and Wildlife.

Ag Property Page:

https://tpwd.texas.gov/landwater/land/private/agricultural_land/ The Management Plan and Annual Report can be found at the bottom of this page.

This is one of the most important pages. Here you will find the management practices for the different types of qualifying practices that you choose:

Other Resources

USDA Natural Resources Conservation Service (NRCS) is a federal agency that works hand-in hand with the people of Texas to improve and protect their soil, water and other natural resources. For decades, private landowners have voluntarily worked with NRCS specialists to prevent erosion, improve water quality and promote sustainable agriculture.
